# A Confident Choice for Total Cancer Care

## Introducing the **Fresenius Kabi Oncology** Portfolio

Working to world-class standards Fresenius Kabi is dedicated to bringing excellence to healthcare professionals, offering one the widest portfolios of cancer care available from one company.

Our state-of-the-art facilities and processes are approved by leading regulatory bodies including the USFDA, EU GMP and TGA. Most of the product are made from our own raw materials allowing us greater control of the

manufacturing and supply chain. Our presence in the generic oncology market demonstrates our ongoing commitment to offering customers cost-effective high-quality products. Our competitively priced portfolio of generic I.V. and oral formulations complements our existing range of oncology products and services.

Further information is available from company upon request.
